Project Profile:

PROJECT PROFILE #1: E-Commerce Application

PROJECT DESCRIPTION:

It consists of the purchasing and selling of products or services through electronics systems like computer network and Internet. In this modern world of technology which is spread over the world in that time many people's have no time to purchase more products with different category through the offline marketing so e-commerce is a good platform for those people who have no time to purchase his/her products.

In that project there are 4 roles

1. Admin role
2. Vendor person role
3. Sales person role
4. Customer.

ROLES AND RESPONSIBILITIES:

- To create test cases based on various test scenarios and requirement specification
- Managing the changes and executing regression tests
- Record problems and issues in accordance with the project's problem and issue management plans
- Involved in bug fixing and enhancement.
- Maintaining quality in test execution by following good documentation in test case results and bug report.
- Involved in support activities till resolution of the issue

PROJECT PROFILE #2: Interactive voice response(IVR)

PROJECT DESCRIPTION: IVR is an automated business phone system feature that interacts with callers and gathers information by giving them choices via a menu. It then performs actions based on the answers of the caller through the telephone keypad or their voice response.

1. Super admin
2. Reseller
3. User

PROJECT PROFILE #3: Hirias(Is an Indian employment website operating in India)

Achievements:

- Got 3th rank in INDIA in Smart India Hackathon 2017 for software development.
- Won several medals in inter-school & inter-college activities
